# Easy sales

Verendus Sales™ is developed closely together with several Scandinavian caravan and motor home dealerships. It is a unique web based easy-to-use business support for the caravan industry and fully adapted to the requirements and needs of the caravan dealers. Today almost half of the Swedish dealers use Verendus Sales.™

The main thought behind Verendus Sales™ is to offer caravan and motor home dealers the most efficient and time saving sales management system on the market.

Starting to use Verendus Sales™ is easy, even with no or little computer skills. From the start, the developers have focused on a user-friendly interface and simplifying the process of using the system. Within hours from ordering, you will be able to start using Sales™.

The trend is moving even more towards web based cloud services. Our products are developed to fit into the needs of tomorrow and the flexibility demanded by our users. You are able to access Verendus Sales™ from all computers, tablets and mobile devices with internet connection.

Our products are continuously upgraded with functions requested from our users. Making sure you as a client always will know that you are using the latest technology.

Verendus is a neutral part in the industry cooperating with the main stakeholders; dealers, producers, finance cooperations and associations.

## Clients

“Since most procedures are generated automatically by Verendus Sales, it takes less effort for us to manage storage and vehicles”

Kjell Molund, CEO, Molunds Fritid

“We are using Verendus because it is easy, flexible and adapted to our specific industry.”

Michael Danielsson, CEO, Camp4you

“It is a real time saving tool. You create and print sales quotes in a couple of minutes.”

Andreas Johansson, sales and marketing, Caravan Eskilstuna

“Serious, structured, adapted for the industry and good support.”

Johnny Lindell, CEO, Vinslövs Fritidscenter

“The software is orderly, easy to use and affordable.”

Andreas Persson, head of service- and marketing, Kalmar Husvagn & Fritid

# Verendus Workshop™

As well as developing the Sales support system Verendus is launching the Workshop System. This will include planning and scheduling for workshop staff and materials used and in storage. The software is synced with Verendus Sales™ and will send orders to the workshop on delivery service, what add-ons to install on the vehicle or further maintenance.

# What is included in Verendus Sales?

## Sales Quotes

- » A professional sales quote could be printed or e-mailed to the customer directly from the system
- » Prices listed from the Caravan Suppliers are continuously updated in the system directly by the Verendus team
- » Within minutes you could create a sales quote with estimates for added on equipment and proposal for financing as well as trade-in value

## Sales and contracts

- » Since using Verendus Sales in the sales process means that you already prepared a sales quote in the system, all you have to do is print the contract.
- » The software also creates documents for the order to the producers.
- » Dates for delivery and possible trade-in are automatically put in the calendar.

## Statistics

- » When in control you could improve and enjoy your business even more. Get statistics on sold units, profit margins, sales quotes made etc.

## Calendar

- » Planning is essential in all business. To be successful we believe that you need a great sales support including a calendar that you could access from everywhere. Verendus makes it easy to work professionally with a modern and up-to-date marketing.

## Vehicle database

- » Information like specifics and prices on trade-ins are handled automatically and sent to the warehouse.
- » The database makes it easier to get information on inbound vehicles and elapsed time in stock.
- » Through the vehicle database you will get an overview on vehicles sold, delivery dates, time of vehicle inspection etc. Everything easily searchable.

## Customer directory

- » All customers, even if they only received a sales quote are saved in the directory.
- » You are able to set a reminder for follow-up to improve customer satisfaction after delivery.

## ..and more

- » Create and print custom price signs.
- » Create and store trade-in-documents.
- » Connected to finance cooperations.
- » All information is searchable.
- » Search vehicle data on license plates within the software.
